US Fleet Becker never loses sight of our customer's individual needs. To this end, and with safety foremost in our minds, we will do everything possible to meet special requests. We are intensely proud of our employee's skill levels, including our engineering and design personnel, electronics technicians, projects and metal fabrication workers and our incredible interior artisans.

We are also greatly honored and challenged to combine our expert's skills and talents to serve your special needs. Please enjoy viewing the individual galleries in this section while knowing that these are but a sampling of the very special projects we can accomplish, for our very special customers.

The key to running a successful business is a return on investment, by overhauling your vehicles you can maximize your earnings and keep your customers happy.

US Fleet Services is one of the east coast's largest, full-service, collision repair facilities. We repair tri-axle trucks. Our goal is to make the repair process as easy as possible for you. We will deal with your insurance company and can even have a rental car waiting for you when you drop off your vehicle for repair.
